NUMBER 24

ALL THE NEWS OF THE BADGER STATE

RACINE PAINTERS GAIN AN
EIGHT-HOUR DAY.

Cheese Industry is Booming in Sheboygan County—Kellogg Gets the Reedsburg Postoffice—New Ore Trains on the Northwestern—Patents for Wisconsin Inventors.

Racine Wis., April 6—At noon yesterday the painter's strike was settled and all men will return to work today. They gain the eight hour demand, but make a slight concession in the scale of wages. The carpenters are still out, but there is hope for a settlement within two days. The metal workers compromised on nine hours at practically the same wage as before.

THE CHEESE INDUSTRY

Sheboygan County Will Manufacture the Usual Amount

Sheboygan, Wis., April 6—Peter Zonne, one of the most extensive cheese buyers in this part of the state, was asked what the cheese prospects are for the coming season. He said he thought the usual amount would be manufactured. He has heard of no new factories to be erected and did not believe that any would be. The county now has about all the factories it can handle to advantage. Some of them have opened, but the majority of them will not be ready for business until grass comes. All the creameries in operation last year will be run again this year. Several of them were converted into cheese factories last year, but were changed back again before the season was over. Many farmers expect to put in more grain than usual this spring, but they are mostly those that are not extensively engaged in the dairy business.

WISCONSIN POSTMASTERS.

Kellogg Gets the Reedsburg Office—Other Appointments Made. John Kellogg will be postmaster at Reedsburg, Sauk county. Representative Babcock having filed a recommendation for his appointment today. Mr. Babcock also recommended R. M. Pierce for postmaster at Albion, Sauk county.

J. G. Paterson was appointed postmaster at Cambridge, Dane county, vice A. A. Prescott, removed; Joseph Richmond at Dewhurst, Clark county, to succeed J. L. Sullivan, resigned; William Bixby at Mills, Washburn county, to succeed T. J. Marley, removed; James B. Watson at Van Dyne, Fond du Lac county vice A. O. Fossum removed.

UNIVERSITY BASE BALL.

Much Interest in This Year's Team Is Being Manifested. Janesville students at the state university are showing unusual interest in this year's base ball team. Brownell and Brewer, of this city, who were members of last year's team, are not on the list this year, as neither is at present attending school.

The men who are to compose this year's team have been chosen as follows: Catcher, Perry; pitcher, Huston, Hitchcock and Reed; shortstop, Aston; first base, Seifert; second base, Gragg; third base, Godfrey and Cochems; out field, Ford, Ball, Metzler and Fugitt. Coach Humphrey has taken hold of the team.

NEW ORE TRAINS.

They Will Be Put Into Effect on the Northwestern At Once. Green Bay, Wis., April 6—A new time card went into effect last night on the Peninsula division of the Chicago & Northwestern road. This puts into operation about 100 new ore trains which will run out of Escanaba. This is the largest number of trains which have been put on or continued in operation on that division since 1889. This will make necessary the sending of a large number of freight trains north during the next few days and also a large number of switch engines will be put in service.

Patents to Wisconsin Inventors.

Washington, April 6—Patents were issued today to residents of Wisconsin as follows: Burgess, Edward W. Milwaukee, grain binder; Godhue, William F., Milwaukee, land roller; Graham, James A. and E. J. Birkett, Milwaukee, harvester truck; Johnson, Frank, Rhinelander, adjustable handle bar for bicycles; Kirchoff, Theodore, Milwaukee, expandable pulley; Larson Ollof and C. Banzelli, combined nut and pipe wrench; Lightfoot, William H., Hazel Green, clevis; Miller, Lee A., Milwaukee, bobbin or under thread case for sewing machines; Moy, Robert, Modena, straw stacker; Osterreicher, August F., Winneconne, treating wheat manufacturing flour; Rommender, William Milwaukee, detachable sash.

State News in Brief.

George E. Bryant, son of Gen. Geo. E. Bryant, and Miss Katherine Taylor, both of Madison, were married by the Rev. W. J. McKay last Saturday evening. The father of the groom was captain of Co. E. First regiment, and the father of the bride was a private of the same company when it left Camp Randall in 1861.

Thirty-one physicians and seventeen dentists were turned out by the Milwaukee Medical college at the Pabst

theater last night, who today can start out on their careers of "looking wise, keeping silent, and dealing out medicine," as President L. D. Harvey, in the address he made to the class, defined the public's idea of a member of the medical profession.

The department of agriculture of the University of Wisconsin is planning to hold ten Farmers' Institutes through the northern part of the state in June. Towns which have suitable halls and desire to have an institute are requested to apply for a one day meeting.

MARRIAGE BELLS TO RING

Fred L. Clement and Emma Ellenfelt Will Be Wedded.

Fred L. Clement and Miss Emma Ellenfelt will be married tomorrow evening by Rev. W. E. Hall. Both bride and groom-to-be are residents of this city, where they have a host of friends who will extend hearty congratulations. They will go to house keeping in a cosy furnished flat on Prairie Court.

HAVE GONE TO CALIFORNIA

W. H. Zader Takes His Family to the Pacific Coast.

W. H. Zader and family left this morning via the C. & N. W. road for Pomona, California where they intend making their future home. While residing in this city they have made a host of friends who will much regret their departure.

ONLY TWENTY-EIGHT

List of Victims of the Shawneetown Flood Has Dwindled to That Number.

Shawneetown, Ill., April 7—[Special]—The list of known victims of Sunday's flood has now dwindled to twenty-eight. Suffering continues, but the water is falling. Supplies are greatly needed.

THEY PAID US A FLYING VISIT

St. Paul Railroad Officials Stop Over at Janesville.

When the 9:30 train from Milwaukee pulled into the city this morning on the Chicago, Milwaukee & St. Paul road, attached to the rear was a private car containing officials of the road. Assistant General Superintendent Bush was among the rest to alight, this being his first official trip over the line since his recent promotion.

Mr. Bush is a man well posted in the handling of a great road like the St. Paul system, his many years' service fitting him for just such position. The stay of the party in Janesville was brief.

Piling In

Load after load of beautiful novelties arriving at the big store. Robert M. Bostwick, now in New York, is sending on an excellent class of goods, carefully selected, and bought at close figures. Fine percales, entirely new printings, wonderfully pretty styles. Gloves for Easter; splendid values at \$1.25, \$1.50. Fancy muslins at 6s, 10c, 12c, 15c, 20c, 25c, etc; entirely new, beautifully fine, late designs. Fancy ribbons, including rich broidery effects for sashes. Fur collarettes, rare values \$4 to \$20, and they're selling. Shirt waists, cotton and silk, women pleasers, and many others. J. M. Boatwick & Sons.

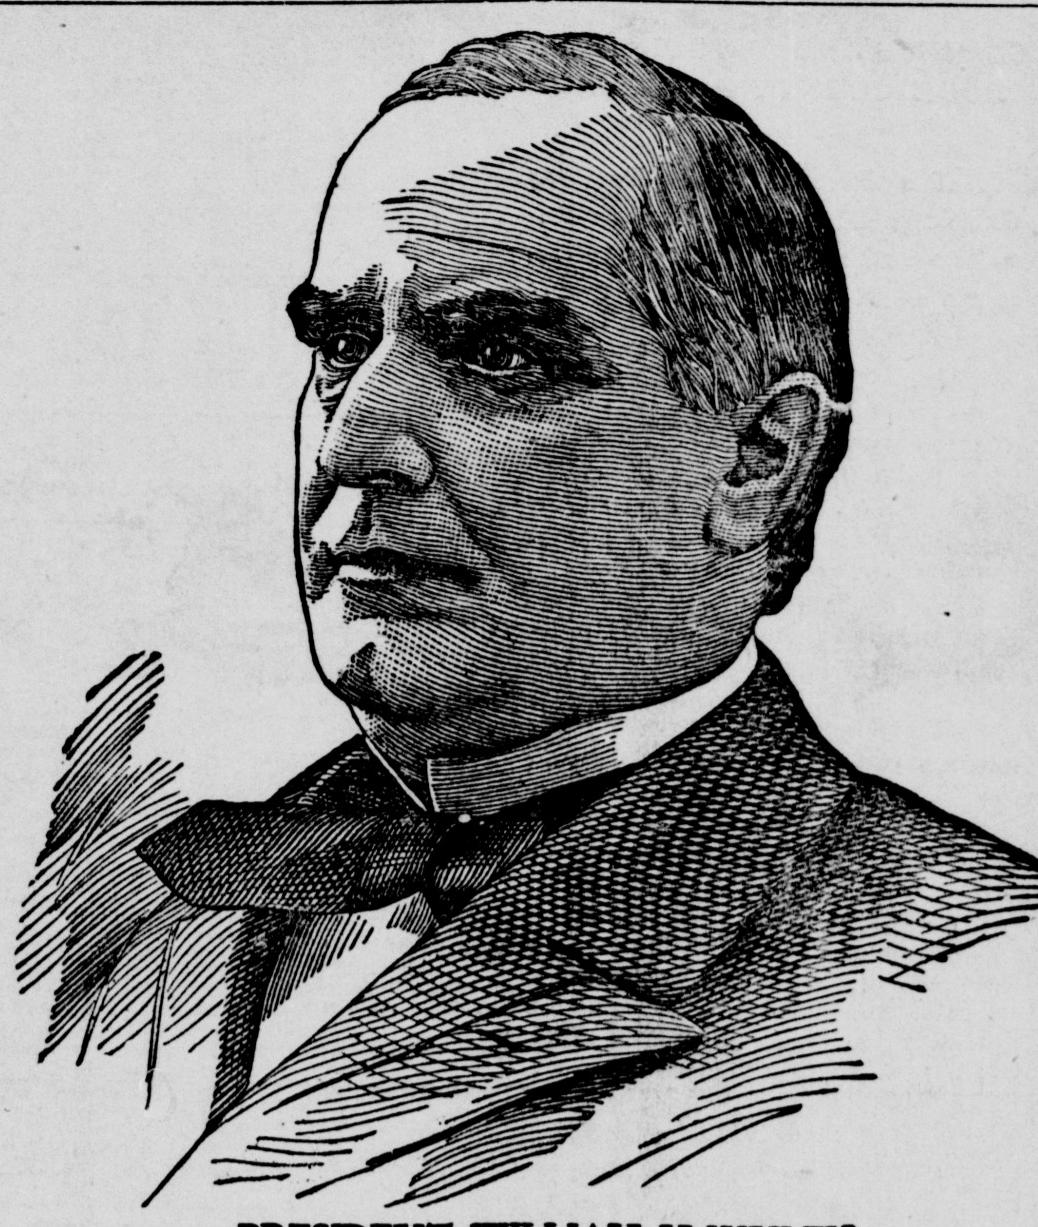

Marking Historic Sites.

It is an excellent thing—the present revival of interest in marking by tablet, monument or otherwise, the scenes of important events which occurred hereabouts during the war of the revolution. The latest project of the kind, the erection of a suitable memorial on Dorchester heights, South Boston, will command its general interest. It was at this commanding position—at that time included within the town of Dorchester—that the army of Gen. Washington constructed the earthworks that menaced Boston and compelled the British to evacuate the city. That the entrenchments thrown up under Washington's direction were not carefully preserved is cause for regret, and emphasized the need of erecting a suitable monument to mark the point of vantage, the possession of which by the continentals compelled the redcoats to abandon Boston to the patriot forces.—Boston Globe.

Thorough Work.

It is to be regretted that the good work credited to a southern cyclone by the New York Tribune cannot be generally extended over the country, uninhibited by any attempt to repair damages. So will think those who dislike to see landscapes and roadsides disfigured by flaring advertisements. A cyclone in a Georgia town recently blew away a big fence, on which the "after-taking" picture of a local farmer had been painted by a patent medicine firm. Soon afterward the old fellow received the following note from a neighbor: "I'm sorry the cyclone blew down your pictur' so far, but I've got good news for you. Bill Jinkins found yer left leg, Mart Wilkins is got a hunk o' yer back, Dan Jones found yer right arm, an' I understand Sister Molly Brown is got t'other arm, likewise yer right leg. All the pieces I seen fit together good. What I wants to know now is, how much will yer give for your head?"

Mrs. T. E. Griffin, of Beloit, is the guest of her sister, Mrs. C. J. McGinley, 200 East Milwaukee street.

PRESIDENT WILLIAM MCKINLEY.

THE ELECTIONS IN NEARBY TOWNS

BELOIT VOTES IN FAVOR OF LICENSE.

Only One City Ticket Was In the Field and the Interest Taken Was But Slight—Officers for Town Government Are Chosen to Serve.

County Clerk W. J. McIntyre was kept busy throughout the day in receiving from the towns claims the results of yesterday's elections in the different towns throughout the county.

In the town of Beloit only 51 votes were cast, and everything went republican, as was the case in most of the towns heard from. A popular chairman was elected in the town of Avon, while a democratic assessor and treasurer happened to work their way through in the town of Union.

The Beloit Contest.

Beloit, Wis., April 6—[Special]—The municipal election held in this city yesterday passed off very quiet, the vote being the smallest polled in years. There being but one ticket in the field, the republican, the contest narrowed down to local option, which resulted in a victory for license by a majority of about 200. Following are the results of the election:

Mayor, C. F. Hardy; city treasurer, James K. Bullock; justice of the peace, J. E. Booth; police justice First and Second wards, J. B. Dow; police justice, Third Fourth and Fifth wards, L. W. Kendall.

First Ward—Alderman, A. C. Helm; supervisor, T. B. Bailey. For license, 150; against license, 96.

Second Ward—Alderman, E. F. Hansen; supervisor, F. F. Livermore. For license, 110; against license, 157.

Third Ward—Alderman, E. A. Day, three years; alderman, Charles E. Conklin, to fill vacancy; supervisor, Simon Smith. For license, 133; against license, 93.

Fourth Ward—Alderman, F. H. Sharp, three years; alderman, D. H. Pollock, to fill vacancy; supervisor, L. W. Kendall. For license, 135; against license, 69.

Fifth Ward—Aldermen, S. R. Merrill, three years; J. H. Ledell, two years; D. E. Hewitt, two years; supervisor, J. C. McEvoy. For license, 150; against license, 96.

The total vote of the city this year was 1,180, against 1,763 in 1897, showing a general lack of interest on the part of voters of the city.

Spring Valley Officials.

At the election in Spring Valley yesterday the following ticket was elected. B. M. Johnson, chairman of the town board; Oliver Hesgård and Archibald Swan, members; Thomas Telsfrud, clerk; George Heimb, justice of the peace; Carl Nevel, justice of the peace; W. W. Meacham, justice of the peace; J. W. Bernstein, assessor; F. E. Cleveland, collector; Wesley Jones, George Ward, C. E. Bates, constable.

Plymouth.

The following ticket was elected in Plymouth on Tuesday: Supervisor—K. N. Granlund, chairman; Samuel Honeycutt, J. O. Fossum. Clerk—M. Ehrlinger. Assessor—Henry Phillips. Treasurer—C. J. Hesgård. Justices of the peace—K. N. Granlund, full term; F. L. Dean, fall term. Constables—Wells, Fred Seeman, T. H. Inman. Fulton.

Richmond, Va., April 6—[Special]

Mrs. Fuzough Lee received a cablegram from her husband last night. He said no alarm should be felt concerning his safety.

Tension At Key West.

Key West, April 6—[Special]

The air is at extreme tension in this city

in Havana. Every effort is being made to secure sufficient steamships to convey Americans to this country.

Lee Quits Havana.

Washington, April 6—[Special]—General Lee cabled the state department this morning that he would leave Havana today.

The Asiatic Squadron.

Loudo, April 6—[Special]—A dispatch from Hong Kong says the United States fleet is preparing to go to sea.

Lee Recalled.

New York, April 6—[Special]—The Journal bulletin says Lee has positively been recalled.

PAID DEARLY FOR HIS FUN

Arthur Minnick Contributed \$18.28 To This City.

In the municipal court this afternoon the case of the State of Wisconsin vs. Arthur Minnick was called. The complaining witness, John Atkinson, of this city claimed that during an argument in a saloon last evening he was assaulted by Minnick, who used him rather roughly.

After hearing the testimony on both sides, the court imposed a fine of \$5 and costs, a total of \$18.28, which the defendant paid.

A MEETING of the council will be held Friday night at 8:15 p.m. General business and to canvass the votes cast at Tuesday's election.

FORTUNE FOR LUTZ IN BANK OF ENGLAND

LOCAL RESIDENT FALLS HEIR TO \$106,000.

Letter From Ohio Relatives Brings the Good News—Janesville Heir Has Been Working at Tobacco Warehouse—Money Is Now In the Bank of England.

John W. Lutz, who resides at No. 8 South Jackson street, has fallen heir to a fortune that now awaits him in the Bank of England. This estate amounts to a vast sum, his share alone being in the neighborhood of \$106,000.

In a letter which has just arrived in the city, the glad tidings were first conveyed to Mr. Lutz, and in a few days he will leave to join relatives in Dayton, Ohio, who are equally benighted.

AMERICANS IN JEOPARDY.

Safety of Citizens in Cuba Causes Anxiety At Washington.

Washington, April 6—Naval movements are not troubling the authorities half so much as the safety of Colonial General Lee and the other Americans in Cuba. The president is exceedingly anxious about them. To avoid trouble with Spain it is necessary to keep our consular representatives in Cuba up to the last moment of safety. It is believed they will get away all right, but it will be a close shave.

It is thought that congress will not act for a day or two after the message is received, and hence the consul's will have time to escape before actual intervention is ordered.

Besides that there is still a lingering hope that Spain will back down to-night or tomorrow.

MUST HAVE INDEPENDENCE

Cubans Will Fight for Spain Unless It Is Granted

New York, April 6—[Special]—The Cuban Junta today made an important statement. It declared the Cuban government and army would reject intervention by the United States until it should be preceded by recognition of the independence of Cuba; that if the United States persisted in intervening without a recognition of Cuba's independence, the Cuban government and military forces would refuse to co-operate, and if the United States troops should be sent to Cuba on the basis of intervention without recognition, the Cuban army would as a last resort turn their arms against the United States.

Long Held from Heirs.

"This fortune we have all known of, but to get it was another matter," said Mr. Lutz "and for the past 120 years it has been drawing interest in the Bank of England. Now we have engaged one of the best lawyers in the country, and I have just been notified that the money awaits us."

"No, I don't know whether or not I will return to Janesville," continued the speaker, "for that is a matter for me to decide on later."

One Step Too Many.

The Australians are said to be a rather solemn people, but circumstances amuse them in spite of themselves.

HONORS NEARLY EVENLY DIVIDED

ELECTION RETURNS CONTAIN MANY SURPRISES.

Both Republicans and Democrats Make Gains in Unexpected Localities—Each Have About an Equal Standing in the Incorporated Cities—Milwaukee Largely Democratic.

The election throughout the state on Tuesday had many surprises, and the results will bring keen disappointment to many who regarded their future in politics as bright with promise.

There was no opposition to Justice Bardeen for the vacancy on the supreme court bench created by the death of Justice Newman. The vote was light, however, many deeming it unnecessary to cast their votes under the circumstances.

The Judgments

Circuit judges were elected in the Fourth and Sixteenth circuits. In the Sixteenth there was no opposition to Judge Silverthorn, who was recently appointed by Gov. Scofield to fill the vacancy caused by the promotion of Judge Bardeen to the supreme bench. In the Fourth circuit the contest was between Michael Kirwan, of Minotowoc, and A. C. Preston, of Sheboygan, both as non-partisan candidates. Mr. Prescott is reported to have received a large vote in Sheboygan, his home county, but Mr. Kirwan has at least 5,000 majority, carrying Fond du Lac and Keweenaw counties, while his home county gives him an endorsement of 5,000.

About Evenly Divided.

Mayors were elected in nearly all the cities in the state and results show that the honors are about evenly divided between the two parties. The republicans carried Appleton, Menasha, Merrill, Baraboo, Ellsworth, Palmyra, Pewaukee village, Monroe, Mazomanie, Bayfield, Mauston, West Bend, Galesville, Durand, Beloit, Marshfield, Oconto, Cudaher, Phillips, and Port Washington, Fort Atkinson, Janesville, Stevens Point.

The democrats carried Waukesha, Elkhorn, Watertown, Antigo, Racine, Elkhorn, Pewaukee, Hartford, Mineral Point, Shullsburg, Ripon, Chilton, Elroy, Medford, Beaver Dam, Chippewa Falls, Darlington, Columbus, Sparta, Jefferson, Elkhorn, Racine, Neenah, Fond du Lac, Menasha, Portage, Oconomowoc, Juneau.

The Liquor Issue.

The license question cut a big figure in many municipalities. The places in which license was carried are: Lake Mills, Trempealeau, Prairie du Sac, Hudson, Green Lake, Fairchild, Bayfield, Brodhead, Orfordville, Mauston, Blad River Falls, Galesville, Elroy, Darlington, Sparta, Cashton, Norway, Baldwin, Beloit, Waupun, Elkhorn, Neenah, Stoughton, Ft. Atkinson, Madison, Dodgeville.

No-license towns are: Deerfield, Ellsworth, Grantsburg, Viroqua, Wyocena, Oconto Falls, Evansville, Gilnwood.

Some Surprises

One of the surprises of the election is the defeat of M. J. Hoven, democratic candidate for re-election to the mayoralty of Madison, by Charles E. Whelan, by the close majority of 13, and it is said the election will be contested. Hoven was elected a year ago by 270 majority on a license platform. The student vote, which has been prohibited heretofore, was permitted, the democrats making no objection. Anthony Donovan, who defeated E. W. Keyes for municipal judge six years ago, again demonstrated his strength, his majority over his opponent being estimated at 2,000.

As Racine, by a fusion of the democrat and populists, the republican candidate for treasurer, upon which the fight was made, was defeated. The council will be a tie. Mayor Graham holds over.

Starkweather Probably Beaten.

The Rev. C. S. Starkweather, the independent candidate for mayor of West Superior, is probably defeated by H. W. Dietrich, the republican nominee, by less than 100 votes. Starkweather apparently had his own way until three days ago, when the populist candidate, a bitter enemy, withdrew in Mr. Dietrich's favor.

Starkweather carried on, his usual novel campaign tactics, his latest scheme being a guessing contest of his majority with pigs from his ranch as prizes. Judge Smith is re-elected judge of the Superior court of West Superior, and high license carried.

Milwaukee is Democratic.

The complete returns show the election of the entire fusion ticket by a majority of 8,012. This is the plurality received by Mr. Rose for mayor, who ran 2,082 ahead of John R. Wolf, the nominee for comptroller, who was next highest. Carl Runge, the nominee for city attorney, fell behind all the other candidates. He received 2,392 fewer votes than Mr. Rose, but notwithstanding, was elected by a plurality of 4,474 over his opponent, Howard Van Wyck, the republican nominee. The total vote east for mayor was 46,870, divided as follows:

END OF THE LECTURE COURSE

Mr. Bennett's Talk on Yellowstone Park
Largely Attended

The last lecture in the Y. M. C. A. course was delivered last evening by R. J. Bennett, of Chicago, who gave an interesting illustrated stereopticon lecture on Yellowstone Park. The evening's entertainment was much enjoyed by the large audience, although the topics were to a great extent of a sameness, dealing with landscapes in that most wonderful of lands.

The entire course has been a success in every way and the Y. M. C. A. management is to be congratulated.

It is said that another course will be planned, and in case such is the fact there is little doubt but the public will lend a most hearty support.

NEW GENERAL STORE COMING

Herman Baermann Has Made Arrangements to Start It

Herman Baermann, who formerly resided in this city, when he served as clerk for S. Rosenfeld, the clothier, is soon to start in business here for himself. Since moving from here he has resided at Raymond, Ill.

Mr. Baermann was in town this week and rented the South Main street store formerly occupied by Samuel Henderson as a meat market. The new lease is for one year, with the privilege of three, and a general stock of boots and shoes, clothing and dry goods will be put in.

IN A PROSPEROUS CONDITION

The Y. M. C. A. finds itself Increasing in Popularity.

During the month of March eight new members joined the Y. M. C. A., while a dozen members renewed their tickets. Those who joined were J. A. Skinner, A. N. Cann, F. E. Sutherland, C. C. Brever, Oliver Hill, C. E. Graves, F. P. Williams, H. B. Newson.

With the coming of the new physical director it is expected that a large number of new members will be added and an extra effort will be made to secure them.

THE LEAF TOBACCO MARKET

Sales Somewhat Small, But Packing and Sorting Busy.

Business in local leaf tobacco circles during the past week is reported as being quiet in the way of sales. Several carload shipments of leaf from Orfordville, Edgerton, Viroqua and Stoughton have arrived during the past few days consigned to the local packers.

At most of the local warehouses business is now of a lively nature in the way of sorting and packing, help being more plentiful.

PLAN FOR NEW BANK ISSUES.

Redeemed Treasury Notes Are to Be Paid Out Only for Gold—Careful Reserve Scheme—Additional Details of the Bill.

Washington, April 6.—The bill prepared by the subcommittee of the house committee on banking and currency for the reform of the currency was introduced in the house Tuesday. The bill consists of two parts. The first eleven sections provide for the establishment of a separate division of issue and redemption in the United States treasury department, and the remaining sections relate to banking and bank currency.

The plans for a division of issue and redemption are practically the same as those brought forward by the Indianapolis monetary commission and approved by Secretary Gage. To the division would be committed all functions relating to the issue and redemption of notes and to the exchange of coin.

Provision is made for a reserve fund in this division to consist of 25 per cent in gold of the value of outstanding United States notes and treasury notes, and of 5 per cent in gold of the aggregate coinage of silver dollars. This fund is to be used solely for the redemption of notes and silver.

The secretary of the treasury is required to maintain the gold reserve high enough to secure immediate redemption of notes and silver dollars at all times, and to do this he is allowed to transfer other funds from the treasury in excess of a cash balance of \$50,000,000 to the division, and also to issue bonds at not over 3 per cent interest, with privilege of redemption after one year.

Among the duties of the division it is expressly specified shall be the payment of gold coin on demand in exchange for silver dollars and of silver for gold. The further issue of gold certificates and of currency certificates is forbidden. United States notes and treasury notes, once redeemed, are to be canceled in amounts not in excess of the national currency notes issued on the basis of the act.

No United States notes or treasury notes, once redeemed in gold, shall be paid out again except for gold, or if the secretary of the treasury deems necessary, in the purchase of United States bonds, which shall be held in the division subject to use in an emergency.

There is established a new species of bank circulation to be called "national reserve notes," to be issued by the banks on the basis of deposits of United States notes or treasury notes and which are to be so regulated that in effect the banks take upon them all the burdens of the current redemption of the government notes in gold. The national reserve notes are to be legal tender and their ultimate redemption falls on the government.

Besides the national reserve notes banks are allowed to issue what are called national currency notes, to be secured by bonds or by the assets of the banks, instead of by deposits of United States or of treasury notes. The total national currency issues of any national bank are never to be allowed to exceed its paid up capital.

Every new national bank will be required to take out national reserve notes to the extent of 25 per cent of its capital, unless there are not enough United States notes and treasury notes in existence to provide security to that extent.

National currency notes are to be issued on the basis of United States bonds at par value, but banks are to be allowed to reduce the amount of bonds they now have on deposit for this purpose by stages beginning one year from the passage of the act. Each year one-fourth of the bonds so used may be withdrawn.

The national currency notes are to constitute a paramount lien on all the assets of the banks. When the national currency notes issued by a bank exceed 60 per cent of its capital a 2 per cent per annum tax is levied upon the excess issues, and when they exceed 80 per cent a 6 per cent tax is to be placed on the further excess.

National banks must hold at least one-fourth of their regular reserves in gold. They must pay a franchise tax each half-year of one-tenth of 1 per cent of the aggregate amount of their capital, surplus and undivided profits.

The provisions for the amount of capital to be required of national banks are that in cities of 50,000 inhabitants or over no bank can have less than \$200,000 capital. From this the capital ranges down to \$25,000 in cities of less than 3,000 inhabitants. Branch banks are authorized under rules to be made by the comptroller of the currency.

Frost Kills the Fruit.

Indianapolis, Ind., April 6.—The cold wave that swept over southern Indiana Monday night did much damage to fruit. Madison, in the heart of the peach region, reports a heavy fall of snow and a temperature of 22 degrees. Peaches, it is announced, are probably all killed. The reports indicate that peaches, apples and small fruits of all kinds were blighted throughout the southern part of the state.

Oberlin College in Good Condition.

Oberlin, Ohio, April 6.—The report that Oberlin college is in such serious financial straits that the discontinuing of the work of the school is contemplated is absolutely without foundation.

STRIKE OF COAL MINERS.

In Violation of President Dolan's Orders
Pittsburg Diggers Quit.

Pittsburg, Pa., April 6.—In direct opposition to the instructions of President Dolan before he left for Ohio, 4,500 miners in the Pittsburg district are now on strike, and today's mass meeting at West Elizabeth may result in a large addition to this number. President Dolan wanted the diggers to work in all mines where the operators evidenced a desire to comply with the conditions of the interstate agreement. The diggers, however, have refused to return to work until the new screens are in place.

UNEVENTFUL DAY IN THE HOUSE.

Washington, April 6.—The crowds which thronged the galleries of the house Tuesday were disappointed. There were no outbreaks of any kind on the floor on the Cuban question. At 5 o'clock the house recessed till 8 p.m. The evening session was devoted to private pension bills.

INSURANCE POLICIES NOT TAXABLE.

Indianapolis, Ind., April 6.—The supreme court overruled a petition for a rehearing in the case involving the taxation of life insurance policies. It is now settled that they are not to be taxed.

CHURCH SOCIETY LAW SUSTAINED.

Lansing, Mich., April 6.—The supreme court sustained the constitutionality of the act of 1897 for the incorporation of all religious and ecclesiastical bodies. The opinion holds that this law repeals all special acts for the incorporation of church societies of various denominations.

COAL MINERS GO OUT.

Assumption, Ill., April 6.—The miners of the Assumption Coal company are on strike. The point of difference was in the scale of wages. Pana and Taylorville are also out and no coal can be had in this part of the state.

SENSATION IN YOKOHAMA.

Yokohama, April 6.—Great Britain's act in regard to Wei-Hai-Wei has caused a sensation here and a large section of the press and public urge the government to adopt an active policy.

NEW MEDICAL DISCOVERY.

A Positive Cure For Dyspepsia.

This may look as though we were putting it a little strong, because it is generally thought by the majority of people that dyspepsia in its chronic form is incurable, or practically so. But we have long since shown that dyspepsia is curable, nor is it such a difficult matter as it first appears.

The trouble with dyspepsia is that the are continually dieting, starving themselves, or going to opposite extremes or else deluging the already over burdened stomach with "bitters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

This is the great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy, but its success and popularity leave no doubt as to its merits.

The tablets will digest food anyway, regardless of condition of stomach.

The sufferer from dyspepsia according to directions is to eat an abundance of good, wholesome food and use the tablets before and after each meal and the result will be digested, no matter how bad your dyspepsia may be, because as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest. Your druggist will tell you that of the many remedies advertised to cure dyspepsia none of them has given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

"THE LIGHT OF THE WORLD
OR OUR SAVIOUR IN ART"

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the best masters. Every picture is reproduced from some famous painting. Agents are taking from three to twenty orders per week. The book is so beautiful that when people see it they want it. The Hermitage, Prado, Uffizi, Pitti Louvre, Vatican, National of London, National of Berlin, Belvidere and other celebrated European galleries have placed their greatest and rarest treasures at their disposal that they might be engraved for this superb volume. "GLANCE AT THE PICTURES BROUGHT TEARS TO MY EYES," says one. "Cleared \$150 first week's work with the book," says another. "Some high grade man or woman should secure the agency here at once," says everyone. "We'll give \$500 cash to anyone making orders to us." Now \$10,000 expended on illustrations for edition coming from press. Also a man or woman of good church standing can secure position of Manager and Correspondent of this territory, to devote all his time to employing and drilling agents and corresponding with them. REPUBLICAN GAINS.

Republicans have reason to feel jubilant over the gains shown by yesterday's election.

Last spring the total vote was 2,780.

Yesterday it was 2,424.

Last spring the total republican vote was 1,478.

Yesterday it was 1,512.

Republicans gain 34.

Last spring the total democratic vote was 1,302.

Yesterday it was 912.

Democratic loss 390.

Last spring the average republican majority was 205.

Yesterday it was 283.

Last spring the majority of the only man on the democratic city ticket elected was 125.

Yesterday it was 18.

Democratic loss 107.

No wonder the republicans feel jubilant. A light vote always meant that the republicans had stayed at home. Now, however, the conditions are reversed—the republicans are united and the democrats disgruntled.

The Postal Telegraph company has organized a company of fifty electricians at Boston and another at New York, to work for the government in case of war laying submarine cables, etc. Every man in each company has been provided with a kit of tools which, under orders, he carries with him day and night. The men have been informed of the service expected of them and they have been told that, should war be declared, they would draw their salary from the company as well as their pay from the government.

The death W. C. Brann, the editor of Brann's Iconoclast, removes a remarkable man. He possessed peculiar ability, and turned out the most scathing articles imaginable. Yet the world would have been no better had he lived. The man who devotes all his energies to pulling down can be better spared than the man whose life is devoted to building up.

\$40,000,000 in gold has been imported, is on the way now, or ordered for importation, since the movement started on February 25. Australia sends us \$6,000,000 of it.

St Louis bricklayers are striking for 55 cents an hour, while during the democratic administration free soup was being dispensed to starving mechanics. Quite a difference, eh?

About the coldest deal sprung lately was the formation of an ice trust of Chicago, with a capital stock of \$3,000,000.

By a unanimous vote the New York legislature has placed in the hands of Gov. Black \$1,000,000 as a contingent war fund.

Full reports from all precincts have now been received. No bloodshed or rioting occurred yesterday at any of them.

Prices Current in the Klondike.

I must be going back to our own pork and beans, as \$5 a meal is more than I can stand. Some men struck town today with thirty-three cariboo and sold the bunch for \$1.50 per pound. Lamp oil is worth \$50 a gallon, candles have taken another jump, and one of the dance halls has shut up, as they have no light. Wood sells for \$25 to \$35 per cord and whisky from \$50 to \$80 per gallon. Dogs are worth almost any price; any old kind of a dog will bring from \$150 up. A good sleigh dog will bring from \$400 to \$600. A saloon was robbed a few nights ago of \$23,000 in gold.—Letter in the Port Huron (Mich.) Times.

Ancient Bacteria.

Modern discoveries concerning the origin of diseases have brought the little organisms called bacteria into so much prominence that search has been made to ascertain if they existed during the early geological periods. A few months ago the fact was announced that M. Regnault of Paris had discovered bacteria in coal. Continuing his researches, he found evidence that bacteria were probably coeval with the first appearance of organic life on the earth. They attacked vegetable tissues, as well as the bones and teeth of animals, but as a rule they belonged to species distinct from the bacteria of today.

GERMAN PASTOR OBEYS DEATH'S CALL

REV. GEORGE KAEMPFLEIN
PASSES AWAY.

Succumbs This Morning to an Attack
of Pneumonia—An Earnest Worker
Whose Efforts Were Attended With
Flattering Success—Mourned by
Many Friends.

Rev. George Kaempflein, pastor of
St. John's German Lutheran church,
died this morning at 4:10 o'clock at
his home, 156 North Bluff street. The
cause of his demise was pneumonia,
he having contracted the disease, in
the shape of a hard cold, a week ago
last Saturday.

Not Considered Serious.

His illness at first was not considered
serious, but as time wore on it
was evident that the disease had fastened
itself upon his system in a way
that painfully told of its serious nature.
During the past few days his condition
has remained about normal, a
turn for the worse not being noticed
till yesterday, and in spite of all that
loving friends could do his spirit took
its flight at daybreak this morning.
Rev. Mr. Kaempflein was an ideal men

KILLED BY A TURKEY GOBBLER.

Judge Samuel Ashe of the first North
Carolina supreme court was killed by
a turkey gobbler. One day, after he
had become very old and infirm, he
was placed in a chair under the shade
of a tree in his yard. A red cap pro-
tected his ancient noddle from the at-
tacks of flies, and his comfort was so
well provided for in every way that a
sweet slumber stole upon him and
caused him to nod. A large turkey
gobbler which patrolled that precinct,
mistaking this for a challenge, im-
mediately gave battle. On a sudden
the judge's sweet slumbers were broken
by the flap of hostile wings, and ere
he could collect his scattered senses a
well-directed spur smote him in the
temple, and he fell down and gave up
the ghost.—Kansas City Journal.

ELectricity in the Catacombs.

The catacombs of St. Calixtus, near
Rome, were recently illuminated with
thousands of electric lamps, filling the
gloomy vaults and passages with a
bright light, whose effect, as it fell
upon the rows of bones and skeletons,
is described as being startling and almost
uncanny. The use of electric lights in the catacombs is perhaps the
latest example of modern practical
science brought face to face with antiquity.

Two Sample Lines--

Included in the purchase were two lines of importers' samples, comprising every line mentioned above. They will all be put on sale at 25 and 33 1/3% under today's positive value.

Damasks in the same standard qualities always to be found at our linen sales, specially priced for Wednesday at 27 1/2c, 37 1/2c, 42 1/2c, 47 1/2c, 57 1/2c, 62 1/2c, 72 1/2c, 87 1/2c—these prices representing better values than we ever before offered. Linen buyers will appreciate this statement.

72 inch Bleached Damask...

Nothing to equal it can be found in a Janesville store; it has twice the weight of ordinary linen and at the same time is fine as silk. Such damask was never put over a counter below \$2.25 per yard. For our Wednesday sale we will let it out for \$1.62.

Brown Damask...

It is called by the trade, you call it unbleached—a special line of 72 inch widths are in and will be on sale at the Wednesday prices; bleaches easily and gives great service.

Pattern Cloths...

Most beautiful designs we ever had of the grandest qualities you would wish to see in satin damasks; napkins to match the cloths.

Pillow Shams...

Cut out work and embroidered, pretty new patterns in a large showing. One lot in particular are excellent value—for Wednesday's sale at \$1.69 per pair. Small tops of same designs, squares in all sizes, round shapes,—everything in the line new.

The same range of prices for Wednesday on staple lines of Towels, Napkins and Crashes. Come expecting to see a grand line of Linens.
